3. Also put adhesive on all four larger tabs as shown.

4. Attach the small tabs as shown in photo on the left to create a box as shown on the right.

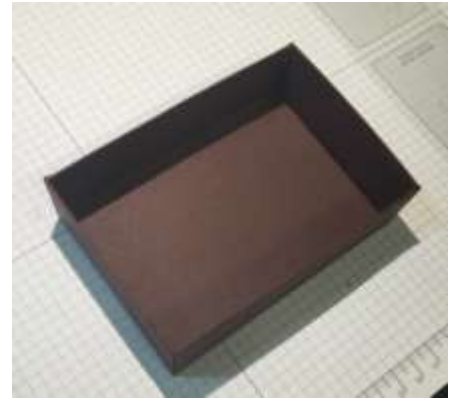

5. Fold larger flaps to inside and rub to adhere them well. This helps to strengthen the box.

Repeat with the box lid piece – $8 \frac{1}{4}'' \times 9 \frac{1}{2}''$

8. Put insert inside box bottom (the box bottom is slightly smaller than the box top). Put lid on box

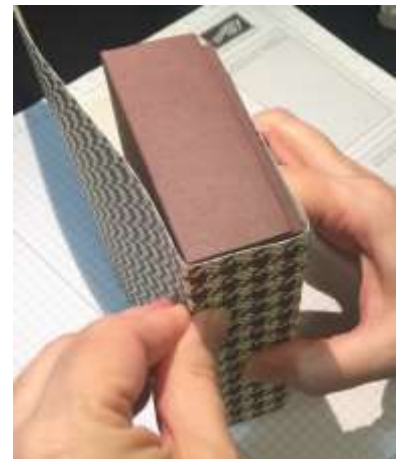

9. Put adhesive along one short edge of designer paper.
4 $\frac{3}{4}$ " x 12"

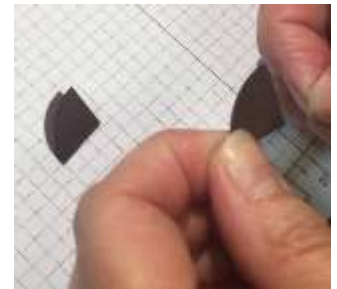

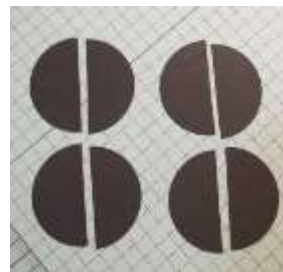

10. Flip designer paper over, put adhesive on inside of the opposite short edge (the designer paper will overlap and stick only to itself, not the box).

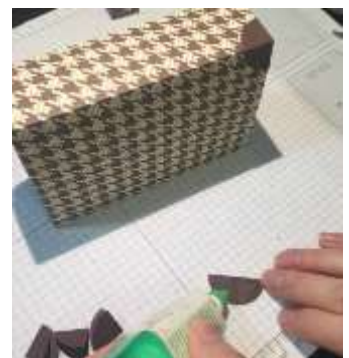

11. Wrap designer paper around box as shown – I made the overlap at the bottom. **DON'T STICK THE DESIGNER PAPER TO THE BOX** – it is overlapping and adhering to itself.

12. Punch four 1 $\frac{1}{4}$ " circles from the 1 $\frac{1}{2}$ " x 5 $\frac{1}{2}$ " strip (not scored one). Also punch a $\frac{1}{2}$ " circle and set aside for later. Cut each 1 $\frac{1}{4}$ " circle in half as shown. Fold each half circle in half.

13. Glue the folded half circles to the designer paper wrap as shown.

Handle – 1 ½" x 5 ½" – score down long side at ¾"

14. Put adhesive down long edge of 1 ½" x 5 ½" scored strip and fold in half. Fold on score lines as shown.

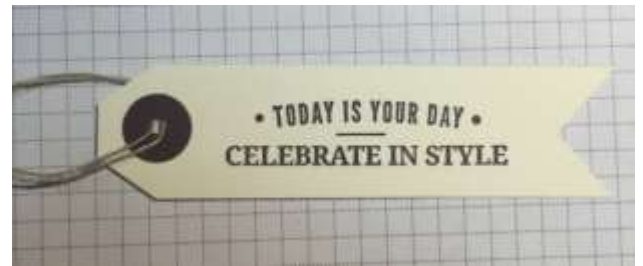

15. Put adhesive on two outside edges as shown and attach to top of briefcase box.

Glue two True Gentleman Buttons on the flaps.
